## FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1<sup>st</sup>.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15<sup>th</sup>. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri Krishnamoorthy Senthil Kumar, Director of Census Operation Bihar. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

New Delhi.  
Dated: 16-06-2014

(C.Chandramouli)  
Registrar General &  
Census Commissioner, India

## Preface

The history of the publication of District Census Handbooks goes back to the 1951 Census and these are printed in every Census because of their wide ranging utility. Census after Census much innovations/modifications have taken place in the District Census Handbooks in terms of coverage and content of population data. This is the most valuable district level publication brought out by the Census Organization on behalf of the State Government. Its inter-alia, provides data/information on some of the basic demographic and socio-economic characteristics and availability of certain important civic amenities/facilities in each village and town of the respective district. This publication has, thus, proved to be of immense utility to the planners, administrators, academicians and researchers. It is hoped that this publication will serve the purpose of the ever increasing demand for the micro-level data in this era of planned development.

The District Census Handbook project is joint venture of the State Government and the Census organization, and is brought out in two parts, viz. (i) part A – the village and town directory and (ii) part B – containing village and town wise Primary Census Abstracts pertaining to total population. It also contains the District Primary Census Abstracts for the total population and the Scheduled Caste and the Scheduled Tribe Population by rural-urban break-up. Keeping in view the pace of development and demand by the data users, the scope of Village Directory Data has been further widened up by incorporating more data parameters on Educational, Medical, Banking Communication facilities. Town Directory data is presented in seven statements covering Status and Growth History of towns, Physical Aspects and Location of Towns, Civic and other Amenities, Medical Facilities, Educational, Recreational & Cultural Facilities, Industry & Banking and Civic & other amenities in Slums respectively.

This volume of the District Census Handbook (DCHB) is concerned with Part-B of the Publication dealing with Primary Census Abstract of the district. It is worth mentioning that the District Census Handbooks of the Census of India, 2011 are being made available in electronic format in addition to printed volumes keeping in view the demands of the data users.

The analytical note has been prepared on the basis of the inset tables generated from the computerized data of Village/Urban Primary Census Abstract. It takes note of the social, economic and demographic changes which have taken place in the districts during the decade.

I am grateful to the State Government agencies for their co-operation in collection of such a huge mass of data. I would like to make a special mention of the warm and whole hearted co-operation which was throughout extended

by the District Magistrates, the Sub-divisional Officers, the District Census Officers and the Block Development Officers.

In my office Shri Mritunjay Kumar, Deputy Director, Mr Manjul Mayank Pandey and Mr Ramesh Prasad, Assistant Directors supervised the project at different stages. District and C. D. Block Maps were prepared in Map Section under the overall supervision of Shri Dharendra Kumar, Assistant Director and Sri Debatosh Biswas, Senior Geographer (Map). I am thankful to all of them. The name of other officers and officials who were associated with this project is shown under Acknowledgement.

I am personally indebted to Dr C Chandramauli, Registrar General and Census Commissioner, India under whose guidance it has been rare privilege to strive for results. I am also grateful to Sri Senthil Kumar, ex Director of Census Operations, Bihar, Patna for their sustained support and unfailing guidance throughout our endeavours. I am equally indebted to Dr. Pratibha Kumari, Assistant Registrar General of Social Studies Division and Dr. A.P. Singh, Deputy Registrar General (Map) for spontaneous help and encouragement at different stages of the work of this project. I am also thankful to Sri M.S. Thapa, Additional Director, Mr Anil Kumar Arora, Joint Director and Mr Ramesh Kumar, Deputy Director of DP Division of Office of the Registrar General, India, New Delhi who supplied software, finalised data and tables.

Arun Kumar Saxena  
Joint Director of Census Operations,

## HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, news papers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.:(i)-Status and Growth History of towns,(ii)-Physical Aspects and Location of Towns,(iii)-Civic and other Amenities,(iv)-Medical Facilities,(v)-Educational, Recreational & Cultural Facilities,(vi)-Industry & Banking, and (vii)-Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

-----

## Brief History of the district

Earlier Saharsa district was within Bhagalpur Division. Kosi Division was formed on 2<sup>nd</sup> October 1972 comprising of Saharsa, Purnia and Katihar district with its head quarters at Saharsa. Similarly a new Civil Sub-Division Birpur was created on 01.12.1972. Consisting of 24 development Blocks viz. Raghapur, Chhatapur, Basantpur and Nirmali which were previously under supaul subdivision of this district. Two new districts Madhepura & Supaul have been formed from Saharsa district on 30.04.1981 and 14-03-1991 respectively. Saharsa district now consists of 2 subdivisions, viz. Saharsa Sadar and Simri Bakhtiarapur. The district consists of 10 development blocks and anchals each. Saharsa is the divisional headquarters of Kosi Division which comprises three districts, namely, Saharsa, Madhepura and supaul.

The district of Saharsa is bounded on the north by the districts of Supaul and Madhubani, on the south by the district of Khagaria, on the east by the district of Madhepura and on the west by the district of Darbhanga. Saharsa is the chief town being the district as also the headquarters of West Kosi Division.

Saharsa was created as a separate district on the 1<sup>st</sup> of April 1954. Formerly it had no independent status and parts of Saharsa were included in the old districts of Munger & Bhagalpur. A large part of the district in the past was subjected to annual floods and inundation by a host of rivers originating from the Himalayas. The sub terai was noted for rice cultivation before it was subjected to the vagaries of the unpredictable Kosi.

The district has been largely influenced by its geography. Whatever remains of historically important sites that may have existed here have been virtually erased by the repeated flooding of the areas by the river Kosi during the last half century. With the efforts of some early Europeans, however, some important historical objects or landmarks have been preserved in a few places and it is on the basis of these that some kind of informations on account of early history of the district can be re-constructed.

In ancient times, Vaishali was the strongest republic in North-Bihar and beyond that lay the famous territory of Anguttarap. There was a small Janpad, named Apna, in Anguttarap and it included a portion of the district of Saharsa. Although it is not confirmed whether this was a republic it is certain that the people of this area were outside the influence of the Lichchhavis. Various sites of the district, now completely eroded and destroyed by the kosi, viz. Biratpur, Budhiagarhi, Budhnaghat, Buddhadi, Pitahahi and Mathai are associated with Buddhism. Before the advent of Kosi in the district these sites supplied important materials, and during the district these sites supplied important materials, and during the period of erosion big buildings and huge construction which lay covered under them were noticed falling into the river. Local legends confirm that Lord Budha and Lord Mahavira passed through the district during their missinoary travels and delivered important sermons.

Both Anga and North Bihar (including Shaharsa) continued to be independent till the early part of the sixth century B.C. For some time Magadh remained an integral part of Anga. But soon the prosperity of Anga declined. Bimbsar, the king of Magadh, annexed Anga to his empire. Though Anga seems to have continued as an independent Janpad. This was the characteristic of the whole of north Bihar until it was finally conquered by Ajatsatru. It was who finally defeated the Lichhavis and other independent republics of north Bihar and annexed the whole territory to the Kingdom of Magadha. The Magadhan empire was growing rapidly and the whole of Bihar was brought under the sway of Magadhan rule by the Nandas and Mauryas.

In the first decade of this century a board of 58 punch marked coins of the Mauryan period was discovered from Goroghat. Later, the same type of coins were found at Fatuaha by prof. R.K.Choudhary in 1956. He also came across some pieces of black polished were near Maheshi and its surroundings. The Mauryan rule in this area stands firmly confirmed by a Mauryan pillar at Sikligarh on the Banmankhi-Purnea Road and another in the Kishanganj Police Station. Since Saharsa was a border district even in those days, the Mauryan rulers apparently took special care to guard its frontiers.

The Mauryans were supplanted by Sungas and Kanvas and there did not seem to have been major political change in the district. Whether the Kushans conquered this portion cannot be determined.

#### **Between 320 and 1097 A.D.**

Under the Guptas (from 320 A.D.) the entire North Bihar was consolidated as a Tirbhukti (province) with its capital at Vaishali. Therefore, the forward province came to be known as Bhukti and the district came to be known as Vishaya. In North Bihar, there were two Bhuktis, viz. Tirabhukti (practically the whole of North Bihar) and Pundravardhanbhukti (included a portion of Saharsa, Purnia and a portion of North Bengal). The extent of Saharsa during the period under review was upto the confines of Pundravardhanbhukti which included some of its present area.

After the decline of the Guptas the political gap came to be utilised by all contemporary chiefs. Taking advantage of the situation the Varmans of Kamrup (Assam) extended their authority up to the confines of the Kosi. The rule of Purnavarman over North Bihar included the present district of Saharsa. The rise of Harsha in 7<sup>th</sup> century A.D. was an event of great importance. He brought under his sway the whole of Northern India. But the death of Harsha in 647 A.D. once again let loose the forces of disintegration.

The Palas of Bihar and Bengal (8<sup>th</sup> century) A.D. gave a stable administration to the district. As South Bihar was pressed by the Kalchuris, the Palas apparently shifted to North Bihar and Saharsa might have been their head quarters during the time of Vigraphapala-III. Quite a few villages in Saharsa district are associated with the names of pala rulers and it was through this district that the Palas could establish contact with Nepal. From

the geographical point of view Saharsa was the most strategically suited from being the Jayaskandharar (temporary Capital) of the Palas at the time when they were surrounded on all sides by enemies.

### **Between 1097 and 1765 A.D.**

The decline of the Pala authority in Bihar and Bengal was followed by the establishment of the Karnatas in Mithila and the Sena dynasties in Bengal. Both the Karnatas and Senas claimed authority over portion of Saharsa and often entered into armed conflict.

Nanyadeva, the first of the Karnatas, extended his influence from Champaran to Purnia. Probably, the two chiefs (Nanyadeva of the Karnatas dynasty and Vijay Sena of the Sena Dynasty) were allies who fell into disagreement over division of territory. The Deopna inscription of Vijay Sena indicated that Nanyadeva was defeated and imprisoned some where in Supaul Sub division. It was Gangadeva, his son who liberated him. The Sanokar inscription of Vallalassena proves that his rule extended upto the district of Bhagalpur.

The two sons of Nanyadeva, Malladeva and Gangadeva apparently drove the Senas further east as indicated by the setting up of Gangapur Rajani (named after Gangadeva) in pargana Nishanpur Kurha and Maldiha (named after Malladeva) on the Saharsa-Purnia border. The Village Malhad 'near Supaul' is also associated with Malladeva. Gangadeva was succeeded by Narasimha Deva during whose reign Mithila and Nepal were separated.

Gradually, the Tughlaq authority in Mithila weakened. Haji Ilyas of Bengal taking advantage of this situation invaded Tirhut and defeated its ruler. He divided the Tirhut kingdom into two parts. As a result of this division the district of Saharsa came under the control of Oinwara rulers. The most famous king of this line was Shiva Singh, who issued gold coins. Vidyapati the famous poet, lived under his patronage.

After the fall of Oinwaras, there was virtual chaos. The Gandhaviya Rajputs are said to have acquired power and ruled during this period of confusion. The Gandhaviya trace their descent from the ruling chiefs of Tirhut. The whole district of Saharsa was dotted with small chief tranships created both by the Hindus and the Muslims. Even in the early part of Mughal rule they could venture to oppose the central authority as Bihar and the Afghans were opposed to the establishment of Mughal authority. The Karranis and the Afghans, in collusion with the local Rajput rulers and petty chiefs had made this district the centre of revolt.

Raja Todarmal made the revenue settlement in Subah, Bihar in 1852. The very fact that most of the existing parganas of the district of Saharsa were assessed during the time of Akbar shows that the district had acquired administrative significance. During the course of the Mughal rule, the present district of Saharsa seems to have formed parts of Sarkar Tirhut, Sarkar Munger and Sarkar Purnia. The Muslim rule naturally had its influence on the

life and culture of people. Some of the Rajput zamindars also became converts. The Muslims of Nawahatta circle in the district of Saharsa are said to have been originally Rajputs and their conversion is traced to the Mughal times. It is said that in 1654 Shahjehan bestowed the title of Raja on Kesri Sinha (Ancestor of Sone-barsa Raj). Raja Fateh Singh of the same line is said to have sided with the East India Company against Mr. Kasim in the battle of Udhuanala in 1763.

In 1764 Saharsa passed with the rest of Bengal under the Control of East India Company. During the Independence Movement of 1857, the people in revolt remained unchecked by the administration of Purnia and Bhagalpur and they moved unchecked through the terai area. They were very active in different parts of the district of Saharsa which was in the midst of a great turmoil. Since then it continued to be an important centre for various kinds of Political agitations directed against the British administration.

The district of Saharsa played an important part in the freedom movement. The Home rule movement of Annie Besant in - 1917 and Swaraj Movement of Mahatma Gandhi in 1921 received widespread support in the district. In Saharsa, the freedom movement was led, among others, by Sarvashri Mahtal Lal Yadava, Shivanandan Mandal, Nand Kishore Chaudhary, Rajendra Mishra, Ram Bahadur Sinha, Yadunanadan Jha and Rajendra Lal Das. Supaul and Madhepura Jails were full of Political prisoners. Thana Bihpur (in Bhagalpur district) was the scene of great activity where Dr. Rajendra Prasad was bitterly beaten by the police and the people of Saharsa were much agitated over this. Picketing took place all over the district with full vigour. The period between 1930 and 1942 was marked by various Kishan agitations all over the district for Bakasht lands.

The August revolution of 1942 formed a landmark in the history of the freedom movement in Saharsa district too. On the 29<sup>th</sup> of August, there was police firing at Saharsa and a number of persons were killed. After his escape from the Hazaribag Jail in 1942 Sri Jay Prakash Narayan visited Saharsa district on his way to Nepal.

Sri Siyaram Singh of Bhagalpur formed Siyaramdal which had its branches in different parts of the district of Saharsa in December 1942. Sri Siyaram Singh met Sri Jaya Prakash Narayan in Nepal where a conference on the works of Bihar was held under the Presidentship of Shri Shivanandan Mandal. The district played a prominent role in the subsequent events which continued till the country's independence.

## **Administrative set up**

The district of Saharsa lies in the central Bihar region of the state. The district of Saharsa is bounded on the north by the districts of Supaul and Madhubani, on the south by the district of Khagaria, on the east by the district of Madhepura and on the west by the district of Darbhanga. The district consists of two sub-divisions namely, Saharsa and Simri Bakhtiyarpur. Madhepura sub-division consists 7 Community Development Blocks (CDB) namely, Kahara, Sattar Kataiya, Patarghat, Mahishi, Sonbarsa and Nauhatta. Simri Bakhtiyarpur sub-division consists 3 CDB: Simri Bakhtiyarpur, Salkhua and Banma Itahari. Saharsa Nagar Parishad is the only statutory towns in the district. Total number of villages in the district are 468. Saharsa Nagar Parishad is the headquarter of the district.

District Magistrate (D.M) is posted in the district who is the top most Officer of revenue and civil administration. He belongs to I.A.S. cadre. District Magistrate conducts development and welfare works in the district. Additional District Magistrate (ADM) and other officers are posted in order to help D.M. in the administration. The district has two subdivisions headed by sub divisional officers either from I.A.S. or B.P.S.C. cadre. S.D.O. is under direct authority of D.M. There are 10 C.D. Blocks in the district where B.D.Os. are posted who undertake development and welfare projects.

### **Judicial Administration :**

The Judges and Munshif magistrates are posted at district and sub-divisions who administer and deliver justice of different kind. The district judiciary is part of Indian judicial system as envisaged in Indian Constitution and independent of district administration.

### **Police Administration :**

The Superintendent of Police, Saharsa is the head of the district police administration who is generally from the Indian Police Service. In the subdivisions of the district, the Deputy Superintendents of Police are posted who keep control on police administration and belongs to Bihar Police Service.

After enactment of 73<sup>rd</sup> and 74<sup>th</sup> amendment of Indian constitution Panchayati Raj Institutions (Gram Panchayat, Panchayat Samiti and Zila Parishad) in rural areas and Local Urban Body (Nagar Panchayat, Nagar Parishad and Nagar Nigam) in urban areas are playing important role in development of the district.

## District Highlights 2011 Census

- Saharsa ranks 27th in terms of population (19,00,661) and 31st in terms of area (1,687 sq.km.) in the state of Bihar.
- In terms of population per sq.km. Saharsa is the 18th densely populated district in the state with 1,127 persons per sq.km as against the state's 1,106.
- Saharsa ranks 27th in terms of sex-ratio (906) against the state's 918.
- Saharsa ranks 21<sup>th</sup> in terms of child sex-ratio (933) against state's 935.
- There are 23 uninhabited villages (out of 468 total villages) in the district of Saharsa.
- Bangaon (under Kahara C.D. Block) is the most populated village (30,061) and Sahsaili Thuthi (under Salkhua C.D. Block) is the least populated village (08) in the district.
- C.D. Block Mahishi has the highest number of villages (81) in the district and C.D. Block Patarghat has the lowest number of villages (15).
- Mahisi (under Mahishi C.D. Block) has the largest area (2,783 hectare) and Maina Arazi (under Mahishi C.D. Block) and Bishunpur (under Kahara C.D. Block) have the smallest area (1 hectare each) among the villages in the district.

## Important Statistics

## **Section - I**

# **Primary Census Abstract (PCA)**

## Brief Note on Primary Census Abstract

### Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

### 2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

### **3. Quality Assurance:**

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if

available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFOA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

#### **4. Primary Census Abstract:**

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

#### **5. Level of Presentation of PCA data in District Census Handbooks:**

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

## **6. Area Figures:**

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.

---
