Before starting the questionnaire

The Epidemiology Research Group of the Ministry of Health, Labor and Welfare is working on research on "How do I prevent adult illnesses such as cancer, stroke, myocardial infarction, etc.?" In this context, we carried out the "Health Promotion Questionnaire" from 1990 to 1991 targeting people who were born from 1930 through 1949 who live in the cities, towns and villages of five health center districts throughout the nation.

Five years have passed since the survey, and we are carrying out a second questionnaire to find out whether there have been any changes in lifestyle or health status of people during this interval, and also details about the state of your dietary life. We would like to ask your cooperation now that you understand the background of this survey.

If you are willing to participate this time, please read the "Instructions on How to Fill in the Questionnaire" below and answer the questions beginning on the following page.

Instructions on How to Fill in the Questionnaire

1. As much as possible, please fill in this questionnaire by yourself.
2. Please fill in the given space (the oval circles) that apply with a black pencil, or enter a number of letter in the box. If you choose "Other" in the multiple choice selections, please fill in specific details in the parentheses.
3. Please use an HB, B or H graphite pencil.
4. Please do not use a fountain pen or ballpoint pen.
5. If you have any corrections, please erase them entirely with an eraser.
6. Please do not fill in anything in the blank spaces.

Questions about Your Dietary Life

Now some questions about your diet will follow.

Recalling your diet over the past one year, please answer with average frequencies and amounts.

If you answer all the items, a detailed nutritional calculation of your normal dietary life can be made, so we will be able to report to each of you individually at a later date whether you have a nutritional balance, or whether your vitamins are enough, etc.

There are a lot of questions, and it this may be difficult for you, but we ask you to please complete it to the end.
