Angiolymphatic invasion	0.007	0.022	0.32	0.018		

Two variables (PGK1 + one other variable) were used each time in this multivariable model.

Sample number is shown in parentheses. PGK, phosphoglycerate kinase 1.

**P* value of PGK1 when combined with other one variable in this multivariable Cox model.

[†]Other variables besides stage are not available in this data set.
