

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Supplementary Data 1 provides cross tabs for vaccination intent by socio-demographic status for each of the countries used in the study.

File Name: Supplementary Data 2

Description: Supplementary Data 2 provides two excel sheets that contain (a) country codes used in the article and (b) all random-effect (country-specific) parameters from our final intercepts-as-outcomes multilevel model.

File Name: Supplementary Data 3

Description: Supplementary Data 3 contains all raw data that are used to create the manuscript figures.
